Palliative Care SA Strategic Plan 2020-22

PALLIATIVE CARE SOUTH AUSTRALIA STRATEGIC PLAN 2020-2022

Vision

All South Australians facing death and bereavement are supported to live, die and grieve well

Mission

Promote quality palliative care and access for ALL South Australians through advocacy, information provision and education to build community capacity and service responsiveness.

Values

- Acceptance of death as a natural part of life
- Courage to discuss death, dying and bereavement in our community
- Respect - offer and encourage understanding and respect for the diversity of beliefs and practices of those who are facing death and bereavement
- Equity - enhancing the distribution of services according to need
- Inclusion – engagement with diverse organisations and communities to achieve our vision and mission

Targeted groups

The groups targeted within the Strategic Plan 2020 – 2022 are: - ageing people and aged care programs, consumers and carers, country SA residents and services, the workforce, GP's, Aboriginal people and people from Culturally and Linguistically Diverse (CALD) communities.

PCSA recognises that there are many more groups that have less access to palliative care and will continue to gather information on these issues and work to increase their priority within future iterations of the PCSA Strategic Plan.

	1 Leadership	2 Community Engagement	3 Education		4 Advocacy
Descriptor	Developing positions to influence decision making and practices for quality palliative care delivery	Engaging with the community in conversations about death and dying	Providing training programs that build capacity in the health workforce and the wider community.
